4.1.8

Bug

- [WD-6030[1]] - Regression: Link from Action to processdefinition is removed after registration
- [WD-7435[2]] - "Clear card" (NFC tag) shall end a current validity with now and clear any future validity
- [WD-7748[3]] - rp_getOrgReport Back-Button is unsusable (very long loading time)
- [WD-7751[4]] - Reporting: TmStandardDestination is shown as default value for parameter string with value null
- [WD-7878[5]] - Falsely possible to add a unique same serial number more than once to the system
- [WD-7954[6]] - Problems in EVM Resources categories, groups and instances UI's
- [WD-7964[7]] - Terminate Employment Button disappears, when current state is INACTIVE
- [WD-7981[8]] - Small layout problem in po_switchToOtherUser
- [WD-8000[9]] - Import daily programs: selecting rescheduling structure not working
- [WD-8021[10]] - Marital Status is lost after update from 3.8 to 4.0.38
- [WD-8026[11]] - 0min efforts are not sorted chronologically
- [WD-8047[12]] - Deleting time effort fails with "Write operations are not allowed in read-only mode"

Improvement

- [WD-7310[13]] - Add new NFC tag: Validate tag number for uniqueness
- [WD-7802[14]] - Master Data > Client > "Options" tab gets cleaned up and restructured into meaningful Field Groups
- [WD-7936[15]] - Allow to omit specific entries in the webdesk.properties file
- [WD-7962[16]] - Disable "Continue" button while being absent if "Book project efforts only while attendance" is activated
- [WD-7963[17]] - Assign vehicles to groups or clients
- [WD-7977[18]] - Create a PTM time effort custom serializer
- [WD-8003[19]] - NFC tags table: Rows shall not be an entire click zone (hard to select text). Explicit edit button enough
- [WD-8010[20]] - Improve label of configuration-parameter "Actual attendance times restrict effort times"
- [WD-8048[21]] - "Change validity" dialog shall start with current valid from/to values prefilled

New Feature

- [WD-7995[22]] - Starting and stopping efforts gets a speed optimized endpoint

Task

- [WD-6727[23]] - Delete Person-related data in EVM module

Sub-task

- [WD-7455[24]] - When returning from NFC tag detail page to overview page the popup from earlier pops up again falsely

- [WD-7728[25]] - Manual input of NFC serial number is sanitized, only accepting [0-9A-Fa-f] with length of 8-14 characters (4-7 bytes)
- [WD-7836[26]] - Sanitize NFC serial number input in search field of NFC Tags
- [WD-7925[27]] - Create Anonymous Person for Client
- [WD-7979[28]] - After creating a NFC tag and returning to overview it is not listed there
- [WD-8004[29]] - NFC tag with no current holder shows this fact plus disables the buttons "Clear Card" and "Change Validity"
- [WD-8005[30]] - Delete NFC tag asks for a confirmation in a dialog
