4.0.32

Bug

- [WD-6659[1]] - Define language of TaInformAboutEvents Job
- [WD-6829[2]] - Can not delete a marital state
- [WD-6914[3]] - Add a loading sign for the Kiosk-app
- [WD-6927[4]] - Bulk Social Security Registration causes a NullPointerException
- [WD-6965[5]] - HR-Expert: Report Ein/Austrittsliste not working
- [WD-6970[6]] - Fix for error message in HrPersonConnector
- [WD-6971[7]] - Fix difference in loading icons for search fields
- [WD-7007[8]] - LazyInitializationException after saving a change on tab "Roles" in HR person editor
- [WD-7013[9]] - Pluggable role-tab does not report its "dirty" state correctly
- [WD-7018[10]] - Make ptm_approveTimeEfforts.act responsive and adress various issues
- [WD-7083[11]] - Success message for starting social security registration needs translation
- [WD-7097[12]] - Correct time ranges for day specific welcome messages on welcome page
- [WD-7173[13]] - Error message appears when rightclicking at monthly journal print view
- [WD-7180[14]] - Field should stay inside the column
- [WD-7181[15]] - Validation text destroys UI
- [WD-7184[16]] - NPE when no ressource is available
- [WD-7187[17]] - Former private address is highlighted but details are not displayed
- [WD-7215[18]] - ExecuteAndSendReports-Job sends empty Excel-Files
- [WD-7226[19]] - No routes are shown for KM allowance in the travel detail view, if geocomplete is used
- [WD-7227[20]] - Printview sorts absence reasons wrong in ta_getJournal
- [WD-7250[21]] - weekly productivity report is sent as corrupt pdf file
- [WD-7261[22]] - PTM: Rejected bookings must be highlighted in color
- [WD-7267[23]] - Edit travel folder: When I choose a date with a datepicker sometimes I get a validation error
- [WD-7276[24]] - Missing color for "declined" time-effort-records in responsive skin
- [WD-7293[25]] - Avoid 2 users logged into Webdesk in the same browser
- [WD-7303[26]] - NoSuchBeanDefinitionException when using ptm_doProjectBooking without a TA module present
- [WD-7309[27]] - Webdesk not starting when PTM module is not present
- [WD-7314[28]] - Stopwatch for doProjectTimeBooking is installed on previous action!
- [WD-7318[29]] - Selecting a client in Organigram view in HRX results in exception
- [WD-7323[30]] - Assigning a new location to an existing person causes UnsupportedOperationException
- [WD-7324[31]] - ExecuteAndSendReports-Job sends broken PDF Files
- [WD-7326[32]] - Webdesk Person Administration does not work without TA JARs being licenced.
- [WD-7327[33]] - Lost systemparameters after updating to WD 4.0.31
- [WD-7330[34]] - Expiry date in licences not working
- [WD-7340[35]] - Regression: Tree-Table grouping layout broken

- [WD-7369[36]] - Regression: missing i18n in orgactionhandler pager
- [WD-7397[37]] - "Request Approval" button is enabled when navigating to a month after the latest approvable month

Improvement

- [WD-5259[38]] - Non-telling button label "Daily Accounting" in Person's TA tab
- [WD-6840[39]] - Technical licence for HRX Ta-Connector integration
- [WD-6912[40]] - Associating a Kiosk Terminal to a specific client / location / org-unit
- [WD-6947[41]] - Make pseudonymization configurable
- [WD-6963[42]] - The TA-Ids of inactive persons sometimes collide with newly generated TA-Ids from IF-6020
- [WD-7001[43]] - Make "Reassign" in wf list open todos available for local administrators (and personalized full system admins)
- [WD-7162[44]] - Improve styling of upload widget when it contains an validation error in responsive skin
- [WD-7177[45]] - Folder explorer (Mobile): folder and file icons going over labels
- [WD-7259[46]] - Refactor executeAndStoreReports and executeAndSendReports to extract common functionality
- [WD-7262[47]] - Make an option to allow collection of Geo-location in system parameters
- [WD-7280[48]] - Implement NFC tag assignment policy following the latest proposal

New Feature

- [WD-7037[49]] - Custom Job: Defining Big and small Daily allowance
- [WD-7169[50]] - Edit bean properties: Add new system property to allow to create Jira Tickets from Webdesk
- [WD-7336[51]] - When using ptm_editTimeEfforts action in a system without TA, the attendance columns are not shown

Task

- [WD-7141[52]] - Refactor implementations around use case "Clear TA-Id when person gets inactive"
- [WD-7252[53]] - Make function calculateAndAdjustContentWidths() in tableLayout.js be a construction parameter, and use its current implementation as fallback
- [WD-7279[54]] - Move HRD from incubator to products
- [WD-7313[55]] - Provide skin agnostic selectors for selenium tests
